## Focus On Customer's Ultimate Satisfaction

### Fun Facts:

- In the summer heat, the iron in France's Eiffel Tower expands, making the tower grow more than 6 inches.
- Studies show that approx. one shot-glass worth of sunscreen is enough to cover the body.
- By eating pest insects, bats save the U.S. agriculture industry an estimated \$3 billion per year.

### Global Partners

Our Purchasing Director, Jason Sakulich, and Company President, Jim Castellino, along with our Asian purchasing team, recently toured the overseas facilities of some of our key manufacturers.

Jason Sakulich and Jim Castellino meeting some potentially new suppliers

This is just one example of a partner facility that utilizes good manufacturing practices and consistently meets our quality standards.

Qualifying manufacturers is critical when your focus is to always offer the highest quality products. Our quality focus incorporates multiple industry specific quality systems while insuring lean manufacturing practices.

Sincerely,

*James J Castellino*

President & CEO
